## About This Game

From the studio that's brought you such classics such as: Kimulator 2, Aidsmoji: The Forbidden Fruit, and There Is A Genie In My Szechuan Sauce comes another epic like none other. A tale of a superhero on his quest to save the world from cringing to death. His name is: Dabman!

On a day like any other, in some random Canadian suburb, Robert and his friend John are hanging out, when John tells Robert to eat a laundry detergent pod. After some banter and offering Robert a copy of aidsmoji, Robert eats the pod and dies. However, to John's shock Robert comes back, but this time with super powers! After demonstrating his super powers to John they both decide to come up with a name for our newfound hero, settling on Dabman. After a proper suiting montage, they settle down and watch the news. From said news report, they learn of the evil villain by the name of Emoji Eradicator, and his plans to take all of the emojis and cringe the world to death. Dabman sets out to stop this evil doer, and bring the emojis back to their rightful owner in this tale of superhero trying to save the world. Will the Emoji Eradicator be successful, or will Dabman arise as the true hero he is, and stop this evil doer!? Find out in Dabman When The Haters Dab Back!

dabman when the haters dab back gameplay. dabman when the haters dab back

Only two things are needed for this to become the greatest experience of all time:

Subtitles due to the autistic virgins choking on their chromosomes, becoming unintelligible. And fixing having to Ctrl+Alt+Delete to exit the game.

Then it'd be a mastapeece. best game  
only game  
EA Sports

(dont worry you will have time to refund it after). Yeah, they dab alot. This is one of the best RPGs I have EVER played! This is a prime example of our generation's intelligence and capabilities. These brave and half ♥♥♥♥♥♥♥♥ game developers have defied all odds against them, and created a true masterpiece. The amount of choices in this game is comparable to other reknowned RPGs such as Fallout: New Vegas and Fallout 76. The only thing that can be improved upon, is the amount of dabbing. I WAS a bit dissapointed when I found out that there were no emoji sex scenes. No emojis ♥♥♥♥♥ed in this game, just a nitpick though.. perfect game, perfect actors, perfect story i cant believe how underrated this game is. with this game i finally found sense in my life. no seriously you want to kill yourself as soon as the game begins

Probably the single greatest game on steam. the beest hame ever 10/10. I really liked the dabbing it was very realistic as to how I dab myself the creators obviously know how to dab like professionals.

They are not kidding around when they dab. they dab like they have to save the universe. which is probably what they are doing by dabbing. exactly.. In a world that needs a hero, one man, Robert, will become that hero.

Why do I like this game? Well do you like 720 MLG NosCopeZ? This games got em.

Do you like chicken nuggets? This game has none. But, its got dabs. I mean ALOT of Dabs. Become the Dab man, face your destiny, and stop that Emerji Erdicator before he does whatever evil thing he was supposed to do.

20/10 gameplay 16/5 Graffix 900000/1 Storee and Writin'

Please Play dees game.. This story... My god... im crying. ITS AMAZING.

PLEASE MAKE MORE

Edit: IT CAME WITH A FREE GAME! IT WAS JUST AS GOOD! BUY THIS GAME NOW!. truly a masterpiece of a game that deserves more then it should, I would join on these shenanigans if i had the chance.. It's not bad, but you get what you pay for.. Honestly the best \$3 i ever spent. Got confused so many times but who needs plot when you could just dab? [?][?][?][?][?]. i feel like i just experienced a cinematic event bigger than the avengers end game. 10/10. Still a better game than depression quest
