hardcore, abstraction and minimalistic trackhardcore, abstraction and minimalistic track. Simple and plain 2D maze dodge game. Contains only 12 levels, but the difficulty can keep you working on it for a while. Mostly you try to rescue yourself on one of the unmined walls. There are speed pickups, portals and lots of bombs you have to dodge. Soundtrack is quite nice. Just the menu contains strange names like "contunue".. Ok, where do i start. First, the plot is amazing. You are a dot going through various mazes for an unknown purpose. The graphics are IC. BOOTING UP THIS GAME MADE ME LOSE NO NUT NOVEMBER INSTANTLY. The game control is just great, id prefer this game over Counter strike, Rainbow Six Siege or any other AAA game out on the market.. Easy game. The achievements are easy too.. Suitable, but not for relaxation, because the farther away the more difficult. Simple and plain 2D maze dodge game. Contains only 12 levels, but the difficulty can keep you working on it for a while.
